TO TRANSACT OTHER BUSINESS

Council held a special meeting yesterday afternoon with all members but Smith and Arnold present.

Two new East End plats were presented and after a short discussion were accepted.

Then came the question of whether or not to pave Pennsylvania avenue. The former bid of Thomas McLaughlin was opened. He had bid \$1.25 per yard for brick paving and 85 cents per yard for macadamized road. For the 15 inches of broken stone to be put on the road he bid 65 cents.

The engineer stated that the contractor had one layer of stone on in some places and in other places he had it all on. He estimated that there was about 39 cents per yard due the contractor now.

Contractor McLaughlin stated that he was willing to go ahead with the brick work at his bid if council desired to pave the road instead of macadamizing it.

Then a long discussion was had as to whether council could make a change in their plans at this late date. Finally, in the absence of Solicitor Gaston a telephone message was sent to Attorney A. H. Clark and he stated, after the matter had been explained to him, that a new resolution had better be passed.

Council passed the resolution by a unanimous vote and Pennsylvania avenue will be paved from lot 1589 to the East End school house.

The Calcutta road matter was then taken up and Attorney Clark stated that if council purposed to grade out the west 12 feet of the road between Wall street and North street a resolution had better be passed.

Before this could be done McLane and Heddleston departed without asking President Marshall to excuse them.

As seven members were needed to pass the resolution, nothing could be done without them. An effort was made to locate them, but without avail and as a result a special meeting has been called for Monday evening at 8 o'clock.

Sophomores Played All Around Them and They Had No Chance to Score.

SOME GOOD PLAYS WERE MADE

The members of the freshmen class of the high school are now "sorry that they spoke," as the sophomores yesterday demonstrated to them that "he who laughs last, laughs best."

The first time the two foot ball elevens came together, neither side was able to score. The next game the freshmen won by a score of 5 to 0, and it is needless to say there was joy in the camp of the freshmen.

That joy has now turned to sorrow and the sophomores are now tell-

ing "what we did to them yesterday."

The game took place yesterday afternoon at Rock Springs, but owing to the cold weather the attendance was not large.

The sophomores just literally walked all over the freshmen and won by a score of 28 to 0. The freshmen never had a chance to score, although they worked hard.

The feature of the game was the playing of Bennett at tackle for the freshmen, while Cripps distinguished himself by making several long runs and three of the touchdowns.

The deciding game of the series will probably not be played until next year, unless the weather moderates considerably.

THREE ARRESTS.

A Number of Unfortunates Who Were Taken to City Jail Yesterday.

Ed O'Brien, giving his home as Allegheny, was arrested yesterday by Officer Morris. O'Brien was under the influence of liquor. He was given a hearing this afternoon.

Frank Doyle, of Chester, filled up on booze Thursday, and in his rambles went into the Leader store. He was ordered out, but refused to go. Officer Morris was called and he was

taken to city hall and locked up. He was given a hearing this afternoon.

F. Johnson, who gives his home as Salineville, was under the influence of liquor yesterday and was arrested by Officer Dawson and taken to city hall. The mayor will give him 30 minutes to leave the city, as he is a frequent visitor at the jail.

SUED THE OFFICERS.

MUSICIANS OF EIGHTH REGIMENT WANT PAY.

They Have Sued for Money Which They Claim the Officers Agreed to Pay Them.

A long delayed law suit was instituted today against the officers of the old Eighth regiment, which took part in the Cuban campaign during the Spanish-American war.

The plaintiffs are Walter Harris and 18 other members of the regimental band, and the defendants are Colonel Curtis V. Hard, of Wooster; Lieutenant (now general) Charles Dick; Major Fred Bryan, Major C. C. Weybrecht, Major Edward Vollrath, Adjutant Alex W. Maynes and the captains of nine companies in the regiment. With the defendants are also named five members of the band, including the leader, William R. Palmer, all of whom refused to become parties to the suit.

The suit is the outgrowth of a disagreement between the musicians and the officers of the regiment relative to the extra pay the band was to receive for accompanying the regiment into active service. When the regiment was mustered in at Camp Bushnell the bandsmen were forced to enlist as privates. The musicians refused to go with only privates' pay and extra pay. The officers, it is alleged, agreed to make up \$325 a month to be divided among the members of the band. It is claimed this amount was paid but one month, and for the balance, which they claim amounts to \$1,560, this suit is brought.

FIXED THE LOSS.

The Appraisers Have Adjusted the Loss at the Bagley Company Fire.

W. A. Weaver and W. G. Stewart, the adjustors who were appointed to fix the amount of loss to the stock of cigars in the recent fire at the Bagley company's store, have finished their work, and the amount allowed was 62½ per cent of the original value, amounting to \$1,097 61.

Closing the Year's Business.

Crockery Journal.

The potteries are occupied chiefly
now with matters pertaining to the
close of the year's business. The holi-
day vacation will commence at the
close of next week—the shutdown to
be made Saturday evening, Decem-
ber 22. Orders will be pretty well
cleaned up by that time.

Preparations for the new year are
well advanced in all the potteries,
and the necessary repairs will be
completed during the vacation.

This is expected at the majority of
the plants to occupy the two weeks
embracing Christmas and New Year's.

Just one Thimble to each customer
for 10c. Because they are worth so
much more than dealers would be glad
to buy them.

Young Women

The entry into womanhood is a critical time
for a girl. With her whole being undergoing a
change, the seeds of female troubles are sown.
Little menstrual disorders, if neglected at the
time, will follow the woman all her life and
grow into fatal complications. That female
troubles are robbing homes and filling grave-
yards, proves this. Yet, irregular and painful
menstruation are often permitted to go on, sap-
ping the life and energy, while Wine of Cardui,
the positive relief for these ills, is on the shelf
of every drug store. Wine of Cardui helps the
maiden sustain the shock of puberty by induc-
ing a painless and natural menstrual flow.
When once this important function is started
right, a healthy life will usually follow. Wine
of Cardui is an emmenagogue of great power,
and works wonders in strengthening the deli-
cate and sensitive female organs. Many young
women owe their lives to Wine of Cardui. No
woman should give up hope until she has given
Wine of Cardui a trial. If thousands have
secured relief through it, why not you?

WINE OF CARDUI

Tully, Kas., Feb. 24, 1899.
I have suffered untold pain at menstrual
periods for a long time; was nervous, had no
appetite, and lost interest in everything; in
fact was miserable. I have taken four bottles
of Wine of Cardui with Black-Draught when
needed and to-day I am entirely cured. I can-
not express the thanks I feel for what you
have done for me.

Closing the Year's Business.

Crockery Journal.

The potteries are occupied chiefly
now with matters pertaining to the
close of the year's business. The holi-
day vacation will commence at the
close of next week—the shutdown to
be made Saturday evening, Decem-
ber 22. Orders will be pretty well
cleaned up by that time.

Preparations for the new year are
well advanced in all the potteries,
and the necessary repairs will be
completed during the vacation.

This is expected at the majority of
the plants to occupy the two weeks
embracing Christmas and New Year's.

Just one Thimble to each customer
for 10c. Because they are worth so
much more that dealers would be glad
to buy them.

Young Women

The entry into womanhood is a critical time
for a girl. With her whole being undergoing a
change, the seeds of female troubles are sown.
Little menstrual disorders, if neglected at the
time, will follow the woman all her life and
grow into fatal complications. That female
troubles are robbing homes and filling grave-
yards, proves this. Yet, irregular and painful
menstruation are often permitted to go on, sap-
ping the life and energy, while Wine of Cardui,
the positive relief for these ills, is on the shelf
of every drug store. Wine of Cardui helps the
maiden sustain the shock of puberty by induc-
ing a painless and natural menstrual flow.
When once this important function is started
right, a healthy life will usually follow. Wine
of Cardui is an emmenagogue of great power,
and works wonders in strengthening the deli-
cate and sensitive female organs. Many young
women owe their lives to Wine of Cardui. No
woman should give up hope until she has given
Wine of Cardui a trial. If thousands have
secured relief through it, why not you?

WINE OF CARDUI

Tully, Kas., Feb. 24, 1899.
I have suffered untold pain at menstrual
periods for a long time; was nervous, had no
appetite, and lost interest in everything; in
fact was miserable. I have taken four bottles
of Wine of Cardui with Black-Draught whea
needed and to-day I am entirely cured. I can-
not express the thanks I feel for what you
have done for me.

ECONOMY

In Manufacture And Selling Now Relied Upon for the Successful Manufacture of Pottery.

Crockery Journal.

The price of pottery has ruled low during the whole year and there seems little inclination on the part of the majority of potters to attempt any regular advance. The action taken at the United States potters' annual meeting the past week gave no indication of any material change beyond an effort to establish uniformity in sizes of staples, and a restoration to original conditions and prices which had practically been cut by increasing sizes in some lines.

Economy in manufacturing and selling, coupled with the highest grade of production, are chiefly relied upon now for successful pottery manufacture.

THAT ARC LIGHT.

We will get it at Walnut and Forest streets "when the robins nest again."

DRUNKS.

They were strongly in evidence last night on our thoroughfares. Two inebriates braced one another at the corner of Washington and Broadway about 10 p. m., and held control of the sidewalk, much to the annoyance of decent and sober citizens.

BEER.

Will some of our local experts in beer drinking kindly tell us the ingredients made use of in the manufacture of beer in the breweries of East Liverpool? This is a pertinent question, and may be a matter of vital interest to more than one beer guzzler in this city.

BISHOP IRELAND.

The bishop would be better engaged, by far, in organizing "Father Matthew" total abstinence societies, than, if he be correctly quoted, in lauding and upholding the army canteen, a saloon in its infancy and an open door to hades. We sincerely hope that Bishop Ireland may repudiate the statement that he favors the accursed army canteen.

PENNSYLVANIA AVENUE.

Council deserves commendation for deciding to pave Pennsylvania avenue with brick. It is an absolute necessity that we shall have a first-class thoroughfare connecting our bustling, progressive suburb with the main city; and this roadway should be a first-class one in every particular, and should be carefully attended to in the future, and kept in first-class order, as the avenue will become a favorite drive and much in demand.

DEAD BEATS.

The organization of a society or club among business men, for the purpose of circumventing and defeating the rascally class known as dead beats, is being agitated in our city. The measure can be made a success, if worked in a practical manner. Almost every business man, in East Liverpool has been imposed upon by these cheats and swindlers, and they should be brought up with a round turn and compelled to earn their living, and not subsist upon their stealings, as they are thieves, in the very meanest sense of the term.

SALOON GRADUATES.

Graduates of colleges and educational establishments are always highly honored and commended. Graduates of the saloon, commonly known as drunkards, are often times thrown bodily from the place of their grad-

uation, the abode of satan, tumbled into the gutter and permitted to remain there until the Black Maria makes its appearance, and the miserable graduate is hauled off to the cooler, while the saloonist, the drunkard maker, grins in ghoulish glee and satan's own merriment, while he baits his hook for some fresh customer, one who has but taken his first drink of devil's broth. Oh, the pity of it. What an infamy that our grand republic shall hold a partnership with the infamous liquor traffic.

HOME, SWEET HOME.

Home ties, especially in a home where Christianity dwells and where God is loved and obeyed, and where the family altar is erected and the Master lovingly and gladly served, are of incalculable value, precious beyond price. Think of this, you who live in such homes, and let your great, loving hearts go out in sympathy and helpfulness, practical helpfulness, to the homeless little ones. Our citizens, as a whole in this section, have made good provision for these waifs and homeless ones in Fairmount Children's Home, Alliance, Ohio, and news just received from that model and superbly conducted Home, show that all of the children are in good health and making preparations for the coming of Santa Klaus. If you know of any measures that you can take to make the coming Christmas happier for these wee ones, act well your part in the name of the Master.

IS TRACKING KUHN.

Frank T. Searight is Not Favorably Impressed, With the Efforts Made to Capture Kuhns.

Auburn Courier.

Frank T. Searight, a reporter for the Cleveland Press, was a caller this forenoon. He has been down at Logansport, Peru and Churubusco, working up the Kuhns episodes for his paper.

He is not favorably impressed with the efforts being made to capture the desperado. He talked with Officer Dean at Logansport and saw the two bullet holes the man supposed to be Kuhns had made.

Valorous Brown saw Kuhns at Busso and knows him well. About the right time after the shooting at Logansport Kuhns stepped off an east bound Wabash train at Churubusco, and left a package at a saloon before starting off into the country. The package was found to contain two revolvers.

Mr. Searight will remain in this part of the county a day or two, and then if nothing definite transpires will return to Cleveland.

DRUNKS.

They were strongly in evidence last night on our thoroughfares. Two inebriates braced one another at the corner of Washington and Broadway about 10 p. m., and held control of the sidewalk, much to the annoyance of decent and sober citizens.

BEER.

Will some of our local experts in beer drinking kindly tell us the ingredients made use of in the manufacture of beer in the breweries of East Liverpool? This is a pertinent question, and may be a matter of vital interest to more than one beer guzzler in this city.

BISHOP IRELAND.

The bishop would be better engaged, by far, in organizing "Father Matthew" total abstinence societies, than, if he be correctly quoted, in lauding and upholding the army canteen, a saloon in its infancy and an open door to hades. We sincerely hope that Bishop Ireland may repudiate the statement that he favors the accursed army canteen.

PENNSYLVANIA AVENUE.

Council deserves commendation for deciding to pave Pennsylvania avenue with brick. It is an absolute necessity that we shall have a first-class thoroughfare connecting our bustling, progressive suburb with the main city; and this roadway should be a first-class one in every particular, and should be carefully attended to in the future, and kept in first-class order, as the avenue will become a favorite drive and much in demand.

DEAD BEATS.

The organization of a society or club among business men, for the purpose of circumventing and defeating the rascally class known as dead beats, is being agitated in our city. The measure can be made a success, if worked in a practical manner. Almost every business man, in East Liverpool has been imposed upon by these cheats and swindlers, and they should be brought up with a round turn and compelled to earn their living, and not subsist upon their stealings, as they are thieves, in the very meanest sense of the term.

SALOON GRADUATES.

Graduates of colleges and educational establishments are always highly honored and commended. Graduates of the saloon, commonly known as drunkards, are often times thrown bodily from the place of their grad-

uation, the abode of satan, tumbled into the gutter and permitted to remain there until the Black Maria makes its appearance, and the miserable graduate is hauled off to the cooler, while the saloonist, the drunkard maker, grins in ghoulish glee and satan's own merriment, while he baits his hook for some fresh customer, one who has but taken his first drink of devil's broth. Oh, the pity of it. What an infamy that our grand republic shall hold a partnership with the infamous liquor traffic.

HOME, SWEET HOME.

Home ties, especially in a home where Christianity dwells and where God is loved and obeyed, and where the family altar is erected and the Master lovingly and gladly served, are of incalculable value, precious beyond price. Think of this, you who live in such homes, and let your great, loving hearts go out in sympathy and helpfulness, practical helpfulness, to the homeless little ones. Our citizens, as a whole in this section, have made good provision for these waifs and homeless ones in Fairmount Children's Home, Alliance, Ohio, and news just received from that model and superbly conducted Home show that all of the children are in good health and making preparations for the coming of Santa Klaus. If you know of any measures that you can take to make the coming Christmas happier for these wee ones, act well your part in the name of the Master.

Auburn Courier.

Frank T. Searight, a reporter for the Cleveland Press, was a caller this forenoon. He has been down at Logansport, Peru and Churubusco, working up the Kuhns episodes for his paper.

He is not favorably impressed with the efforts being made to capture the desperado. He talked with Officer Dean at Logansport and saw the two bullet holes the man supposed to be Kuhns had made.

Valorous Brown saw Kuhns at Busso and knows him well. About the right time after the shooting at Logansport Kuhns stepped off an east bound Wabash train at Churubusco, and left a package at a saloon before starting off into the country. The package was found to contain two revolvers.

MARKS ON AMERICAN POTTERY AND PORCELAIN.

The Messrs. Rouse and Turner took the Jersey City pottery soon after 1850. They made white ware, on which they placed the English mark, the lion and unicorn, with the initials of the firm, R. & T. beneath. This was probably the first American pottery to stamp its wares with a foreign mark. It was the beginning of a practice which afterwards became common among American manufacturers and has survived until the present time, for, until a few years ago, foreign wares were preferred to the domestic.

About 1880 the firm began to use a mark on their ivory white ware for decorators. This mark consisted of the letters I. V. W. It was evidently prepared hurriedly, as the middle letter should have been a W, but, since the error had appeared on the ware, it was never corrected.

James Bennett erected a pottery for the manufacture of yellow and Rockingham ware in East Liverpool, Ohio, in 1839. This was the pioneer pottery of what is now the greatest pottery producing section in the United States. In 1844, Mr. Bennett, with his three brothers, moved the plant to Birmingham, Pittsburg, Pa. The mark used at this time was the name of the firm, "Bennett Bros."

In 1846 Edwin Bennett withdrew from the firm and went to Baltimore, where he erected a small pottery. Two years later he was joined by his brother William. The mark used at this period consisted of the firm name and address. The wares produced were stoneware of various colors, Egyptian black ware and a variety of majolica that was introduced about 1850. This mark was discontinued about 1856, when William Bennett withdrew.

During the following 20 years no other marks appear to have been employed. In 1875 the Phoenix mark was used on white granite ware.

In 1880 a seven-pointed star, enclosing the initials of the manufacturer, was adopted for stone china.

In 1884 the mark for cream colored ware was a globe in a circle, surrounded by the word warranted.

In 1884 and 1885, copyright and patent marks were used on parian plaques, with relief designs of heads of cattle and other specialties, modeled by James Priestman. These were among the best things of the kind that had been produced at that time, and were modeled from life.

In 1886 the owl mark was used on "Ivory" chamber sets and jugs. In the same year the mark for stone china consisted of a design of two deers supporting a shield. Mr. Bennett had been importuned by the trade to adopt the English mark, which he refused to do, but compromised by using this device, which is, in reality, though perhaps not intended to be, a modification of the arms of the state of Michigan. An additional mark for stone china or white granite ware was used to some extent in 1886. This was a square enclosing a circle inscribed "Warranted Stone China."

In 1890, when the Edwin Bennett Pottery Co. was organized, the mark adopted was a globe, pierced through the United States by a sword, on the guard of which the initials of the company appear. The motto which forms a part of the mark is "Bona Fames Melior Zona Aurea." This continues to be used on all semi-porcelain wares. Several variations appear on special wares.

In 1892 the Semi-Granite stamp was placed on cream colored ware.

In 1896 the Coronet stamp was employed as a mark on an English printed body.

In 1894 the company began the manufacture of their "Brubensul" ware, a highly glazed variety of majolica. The names were formed by the combination of the first syllables of the names of the firm—Brunt, Bennett and Sullivan. The mark appears as a large paper label attached to the bottoms of jardinières and other pieces.

In 1895 the production of slip-painted ware was commenced, which was called "Albion" ware, because slip decorating had been done in England at an early period. This was decorated beneath the glaze and possessed a distinct art value and elements of originality. The mark consisted of the name of the company and of the ware and the date of production.

The foremost decorator of the Albion ware was Miss Kate De Witt Berg, a former pupil of the Pennsylvania Museum and School of Industrial Art, Philadelphia. Her monogram appears on pieces painted by her, either in printing or writing letters.

Miss Annie Halsam Brinton, also of Philadelphia, was another decorator of Albion ware. Her mark was a monogram of her initials.

In 1896 the diamond mark was placed on a hard grade of china, which was only produced for a short while.

From 1897 to the present time (1900) a modification of the earlier coronet stamp has been used for cream-colored ware.

The American Porcelain Manufacturing Co., of Gloucester, N. J., produced soft porcelain from 1854 to 1857. Their mark consisted of the initials of the company impressed in the paste. Marked pieces that are known are embellished with raised floral designs in white.

The Southern Porcelain Co., of Kaolin, S. C., manufactured parian ware and fine white ware to a limited extent between 1856 and 1862. They also made brown stoneware telegraph insulators. The mark used on the latter and probably on some of the finer wares was an impressed shield bearing the initials of the company.

Messrs. Millington, Astbury & Poulson, of Trenton, N. J., were making white ware goods in 1861. A large pitcher, with relief designs, illustrating the shooting of Colonel E. E. Ellsworth at Alexandria, Va., at the breaking out of the civil war, bears their impressed mark, an ellipse with the initials of the firm.

Messrs. Stephens, Tams & Co. established a pottery in Trenton in 1861. In 1868 they organized the Greenwood Pottery Co. From that date until 1875 the arms of the state of New Jersey were used as a mark for ironstone china. In the latter year they added the legends which appears on the subjoined mark. The

patent was on a scalloped dish which was produced in that year.

The initials of the company were stamped in the body of the first table porcelain made at this factory about the same period.

In 1886 the name "Greenwood China" was impressed in the body of table and toilet wares.

From 1883 to 1886 the mark used on art wares was suggested by the Royal Worcester mark. The figures in the center (61) have reference to the date of the establishment of the factory. This mark was printed in purple on the ware, which had an ivory finish and raised gold decorations.

In 1886 the mark used on hard porcelain art ware was a modification of the above. It was printed in purple beneath the glaze.

This same mark was also used on special orders of art wares for Messrs. Ovington Bros., of Brooklyn, with the addition of their firm name.

The upper portion of this mark was also used alone, to some extent, on similar wares of the Royal Worcester style.

ONE KILLED, SEVEN INJURED

Forgetfulness of an Operator on the Fort Wayne Road, Near Pittsburg, Caused a Fatal Wreck.

Pittsburg, Dec. 15.—Forgetfulness on the part of the telegraph operator in the signal tower at Leetsdale caused a serious wreck, the death of one the serious injury of nine others and much damage to rolling stock on the Pittsburg, Ft. Wayne and Chicago railroad.

The Leetsdale accommodation pulled out and the operator by mistake set a white block instead of red block for No. 8, a fast train. The fast train crashed into the accommodation. The operator sent a message to Edgewood, asking the operator there to flag No. 8 and got an "OK" answer, but the wreck occurred. The operator continued at his work until it was over and he was relieved. After reporting to the chief and taking the blame himself, he later went to Allegheny City and reported in person. One man was killed, as follows:

Oscar White, fireman on express train, cut about the head and body. Died at Mercy hospital; never recovered consciousness.

The injured were: R. L. Stevens, passenger on No. 8 residence New York city; internally injured; condition serious. Sent home.

D. J. White, baggage-master on accommodation, arms and body crushed. Condition serious.

Fred Schuch, brakeman on accommodation, aged 24, and single; suffered severe body bruise. Seriously hurt, but will recover.

James Johnston, of Leetsdale, conductor on the accommodation, cut about face and body. Condition not serious.

J. E. Hanson, of Chicago, passenger on express, scalp bruised, but not seriously hurt.

Mrs. Hanson, wife of J. E. Hanson, stunned by fall from berth and thought to have been hurt internally. William Fischer, of Dover, Del. head cut by being thrown against seat.

Ada Fischer, 14 years old, daughter of William Fischer, slightly cut about the face.

George Fleming, porter in private car of General Superintendent Charles Watts, had right side badly bruised.

MARKS ON AMERICAN POTTERY AND PORCELAIN.

The Messrs. Rouse and Turner took the Jersey City pottery soon after 1850. They made white ware, on which they placed the English mark, the lion and unicorn, with the initials of the firm, R. & T., beneath. This was probably the first American pottery to stamp its wares with a foreign mark. It was the beginning of a practice which afterwards became common among American manufacturers and has survived until the present time, for, until a few years ago, foreign wares were preferred to the domestic.

About 1880 the firm began to use a mark on their ivory white ware for decorators. This mark consisted of the letters I. V. W. It was evidently prepared hurriedly, as the middle letter should have been a W, but, since the error had appeared on the ware, it was never corrected.

James Bennett erected a pottery for the manufacture of yellow and Rockingham ware in East Liverpool, Ohio, in 1839. This was the pioneer pottery of what is now the greatest pottery producing section in the United States. In 1844, Mr. Bennett, with his three brothers, moved the plant to Birmingham, Pittsburg, Pa. The mark used at this time was the name of the firm, "Bennett Bros."

In 1846 Edwin Bennett withdrew from the firm and went to Baltimore, where he erected a small pottery. Two years later he was joined by his brother William. The mark used at this period consisted of the firm name and address. The wares produced were stoneware of various colors, Egyptian black ware and a variety of majolica that was introduced about 1850. This mark was discontinued about 1856, when William Bennett withdrew.

During the following 20 years no other marks appear to have been employed. In 1875 the Phoenix mark was used on white granite ware.

In 1880 a seven-pointed star, enclosing the initials of the manufacturer, was adopted for stone china.

In 1884 the mark for cream colored ware was a globe in a circle, surrounded by the word warranted.

In 1884 and 1885, copyright and patent marks were used on parian plaques, with relief designs of heads of cattle and other specialties, modeled by James Priestman. These were among the best things of the kind that had been produced at that time, and were modeled from life.

In 1886 the owl mark was used on "Ivory" chamber sets and jugs. In the same year the mark for stone china consisted of a design of two deers supporting a shield. Mr. Bennett had been importuned by the trade to adopt the English mark, which he refused to do, but compromised by using this device, which is, in reality, though perhaps not intended to be, a modification of the arms of the state of Michigan. An additional mark for stone china or white granite ware was used to some extent in 1886. This was a square enclosing a circle inscribed "Warranted Stone China."

In 1890, when the Edwin Bennett Pottery Co. was organized, the mark adopted was a globe, pierced through the United States by a sword, on the guard of which the initials of the company appear. The motto which forms a part of the mark is "Bona Fames Melior Zona Aurea." This continues to be used on all semi-porcelain wares. Several variations appear on special wares.

In 1892 the Semi-Granite stamp was placed on cream colored ware.

In 1896 the Coronet stamp was employed as a mark on an English printed body.

In 1894 the company began the manufacture of their "Brubensul" ware, a highly glazed variety of majolica. The names was formed by the combination of the first syllables of the names of the firm—Brunt, Bennett and Sullivan. The mark appears as a large paper label attached to the bottoms of jardinières and other pieces.

In 1895 the production of slip-painted ware was commenced, which was called "Albion" ware, because slip decorating had been done in England at an early period. This was decorated beneath the glaze and possessed a distinct art value and elements of originality. The mark consisted of the name of the company and of the ware and the date of production.

The foremost decorator of the Albion ware was Miss Kate De Witt Berg, a former pupil of the Pennsylvania Museum and School of Industrial Art, Philadelphia. Her monogram appears on pieces painted by her, either in printing or writing letters.

Miss Annie Halsam Brinton, also of Philadelphia, was another decorator of Albion ware. Her mark was a monogram of her initials.

In 1896 the diamond mark was placed on a hard grade of china, which was only produced for a short while.

From 1897 to the present time (1900) a modification of the earlier coronet stamp has been used for cream-colored ware.

The American Porcelain Manufacturing Co., of Gloucester, N. J., produced soft porcelain from 1854 to 1867. Their mark consisted of the initials of the company impressed in the paste. Marked pieces that are known are embellished with raised floral designs in white.

The Southern Porcelain Co., of Kailin, S. C., manufactured parian ware and fine white ware to a limited extent between 1856 and 1862. They also made brown stoneware telegraph insulators. The mark used on the latter and probably on some of the finer wares was an impressed shield bearing the initials of the company.

Messrs. Millington, Astbury & Poulson, of Trenton, N. J., were making white ware goods in 1861. A large pitcher, with relief designs, illustrating the shooting of Colonel E. E. Ellsworth at Alexandria, Va., at the breaking out of the civil war, bears their impressed mark, an ellipse with the initials of the firm.

Messrs. Stephens, Tams & Co. established a pottery in Trenton in 1861. In 1868 they organized the Greenwood Pottery Co. From that date until 1875 the arms of the state of New Jersey were used as a mark for ironstone china. In the latter year they added the legends which appears on the subjoined mark. The

patent was on a scalloped dish which was produced in that year.

The initials of the company were stamped in the body of the first table porcelain made at this factory about the same period.

In 1886 the name "Greenwood China" was impressed in the body of table and toilet wares.

From 1883 to 1886 the mark used on art wares was suggested by the Royal Worcester mark. The figures in the center (61) have reference to the date of the establishment of the factory. This mark was printed in purple on the ware, which had an ivory finish and raised gold decorations.

In 1886 the mark used on hard porcelain art ware was a modification of the above. It was printed in purple beneath the glaze.

This same mark was also used on special orders of art wares for Messrs. Ovington Bros., of Brooklyn, with the addition of their firm name.

The upper portion of this mark was also used alone, to some extent, on similar wares of the Royal Worcester style.

ONE KILLED, SEVEN INJURED

Forgetfulness of an Operator on the Fort Wayne Road, Near Pittsburg, Caused a Fatal Wreck.

Pittsburg, Dec. 15.—Forgetfulness on the part of the telegraph operator in the signal tower at Leetsdale caused a serious wreck, the death of one the serious injury of nine others and much damage to rolling stock on the Pittsburg, Ft. Wayne and Chicago railroad.

The Leetsdale accommodation pulled out and the operator by mistake set a white block instead of red block for No. 8, a fast train. The fast train crashed into the accommodation. The operator sent a message to Edgewood, asking the operator there to flag No. 8 and got an OK answer, but the wreck occurred. The operator continued at his work until it was over and he was relieved. After reporting to the chief and taking the blame himself, he later went to Allegheny City and reported in person. One man was killed, as follows:

Oscar White, fireman on express train, cut about the head and body. Died at Mercy hospital; never recovered consciousness.

The injured were: R. L. Stevens, passenger on No. 8 residence New York city; internally injured; condition serious. Sent home.

D. J. White, baggagemaster on accommodation, arms and body crushed. Condition serious.

Fred Schuch, brakeman on accommodation, aged 24, and single; suffered severe body bruise. Seriously hurt, but will recover.

James Johnston, of Leetsdale, conductor on the accommodation, cut about face and body. Condition not serious.

J. E. Hanson, of Chicago, passenger on express, scalp bruised, but not seriously hurt.

Mrs. Hanson, wife of J. E. Hanson, stunned by fall from berth and thought to have been hurt internally. William Fischer, of Dover, Del. head cut by being thrown against seat.

Ada Fischer, 14 years old, daughter of William Fischer, slightly cut about the face.

George Fleming, porter in private car of General Superintendent Charles Watts, had right side badly bruised.

WESTERN POTTERIES.

CUT QUITE A FIGURE IN THE IMPROVEMENTS MADE THIS YEAR.

Over Sixty New Kilns Have Been Built And Over 50 of Them Are in the West.

In speaking of the statistician's report at the meeting of the Manufacturing Pottery at Pittsburgh, Crockery and Glass Journal says:

There must be an error in that part of the report of the statistics committee where it states that only 39 new kilns have been added this year. Our list of new kilns this year shows over 60, more than 50 of which are in the west, as follows:

Knowles, Taylor & Knowles Co., 1; Burford Bros., 1; East End, 1; Globe, 2; Harker pottery, 1; Wallace & Chetwynd, 2; C. C. Thompson, 1; National China, 1; Laughlin, 6; Taylor, Lee & Smith, 9; Edwin Knowles China, 5; East Palestine, 1; Salem China, 1; Sebring Pottery, 6; Smith & McNicol, 1; United States pottery, 2; Wellsville China, 2; Warwick China, 2; Canonsburg China, 6; total, 51. A stone ware plant at Akron has been changed into a white ware plant, the Summit China Co.—with three practically new kilns—making 54 in the west.

We are credibly informed that eight new kilns have been added in the east—Maddocks four, and Onondaga four—and there may be more. These would make 62 new kilns this year, saying nothing about changes from rock and yellow and sanitary to white ware at Rogers and Tiffin. The latter would, however, only be new in the white ware line.

There are also projects that seem probable of consummation the first half of 1901 that will add anywhere from 26 to 40 more new kilns in the west.

TAKING DEPOSITIONS.

Attorney Ramsey, of Tennessee, is Here Today Getting Evidence in a \$5,000 Damage Suit.

Attorney Ramsey, of Tennessee, arrived in the city yesterday and is taking depositions in a \$5,000 damage suit, brought by a Manchester (Tenn.) pottery firm against a railroad corporation.

Some months a consignment of saggars were shipped by the Potters Supply company to the firm and when they arrived at their destination the pottery people were presented with a bill of \$50 for freight. They refused to pay the sum, claiming it was exorbitant, and were compelled to close down their plant in consequence of a shortage of saggars.

They ask the \$5,000 to cover the damage caused by the shutdown. Ramsey is for the railroad company.

OAKWOOD POTTERY.

East Liverpool Has Just Cause for Pride in the Beautiful Ware Turned Out.

Readers of the News Review, have you paid a visit to the furniture establishment of the S. G. Hard Co., Fifth street, and noted the exquisite art pottery now being displayed there? If you have not, then you have missed a genuine treat. The shapes are superb, the coloring rich and beautiful, the decorations all that can be desired. Delighted purchasers are loud in their praise of Oakwood Art Pottery. All the work on these elegant designs is done by hand, under the skillful manipulation of born artists. The product now on exhibition comes from the first kiln burned at No. 106 Huston street, East Liverpool, near new pump house, and our citizens have a right to be proud of the beauties turned out. The proprietors are our townsmen, Messrs. Henry Schmidt, Harry Benty and Louis Benty. We predict for them and their establishment lasting success. And don't you fail to visit the S. G. Hard Company and secure some of these beautiful art goods as presents for your dear ones for Christmas. Patronize your home establishments. Encourage home industry.

Sweet butter can't be made in a sour churn. The stomach is a churn. A foul stomach fouls the food put into it. When the food is fouled the blood made from it is fouled also. Foul blood means disease. Cleanse the churn and you have sweet butter. Cleanse the stomach and you have pure blood. The far reaching action of Dr. Pierce's Golden Medical Discovery is due to its effect on the stomach and organs of digestion and nutrition. Diseases that begin in the stomach are cured through the stomach.

"Dr. Pierce's Golden Medical Discovery has proved a great blessing to me," writes Mrs. Ellen E. Bacon, of Shutesbury, Franklin Co., Mass. "Prior to September, 1897, I had doctored for my stomach trouble for several years, going through a course of treatment without any real benefit. In September, 1896, I had very sick spells and grew worse; could eat but little. I commenced to take Dr. Pierce's medicine and in a short time I could eat and work. I have gained twenty pounds in two months."

Dr. Pierce's Common Sense Medical Adviser sent free on receipt of stamps to pay expense of mailing only. Send 21 one-cent stamps for paper-bound volume, or 31 cents for cloth binding, to Dr. R. V. Pierce, 663 Main Street, Buffalo, N. Y.

TAKING DEPOSITIONS.

Attorney Ramsey, of Tennessee, is
Here Today Getting Evidence in
a \$5,000 Damage Suit.

Attorney Ramsey, of Tennessee, ar-
rived in the city yesterday and is
taking depositions in a \$5,000 damage
suit, brought by a Manchester (Tenn.)
pottery firm against a railroad corpo-
ration.

Some months a consignment of sag-
gers were shipped by the Pottery Sup-
ply company to the firm and when
they arrived at their destination the
pottery people were presented with a
bill of \$50 for freight. They refused
to pay the sum, claiming it was ex-
orbitant, and were compelled to close
down their plant in consequence of a
shortage of saggars.

They ask the \$5,000 to cover the
damage caused by the shutdown.
Ramsey is for the railroad company.

OAKWOOD POTTERY.

East Liverpool Has Just Cause for
Pride in the Beautiful Ware
Turned Out.

Readers of the News Review, have
you paid a visit to the furniture es-
tablishment of the S. G. Hard Co.,
Fifth street, and noted the exquisite
art pottery now being displayed there?
If you have not, then you have missed
a genuine treat. The shapes are su-
perb, the coloring rich and beautiful,
the decorations all that can be desired.
Delighted purchasers are loud in their
praise of Oakwood Art Pottery. All
the work on these elegant designs is
done by hand, under the skillful ma-
nipulation of born artists. The pro-
duct now on exhibition comes from
the first kiln burned at No. 106 Huston
street, East Liverpool, near new pump
house, and our citizens have a right
to be proud of the beauties turned
out. The proprietors are our towns-
men, Messrs. Henry Schmidt, Harry
Benty and Louis Benty. We predict
for them and their establishment last-
ing success. And don't you fail to
visit the S. G. Hard Company and se-
cure some of these beautiful art
goods as presents for your dear ones
for Christmas. Patronize your home
establishments. Encourage home in-
dustry.

Some Change Made in Regard to the
Location of the New Lights
in East End.

Those having in charge the selection of the locations for the new street lamps in East End have changed their mind in regard to the placing of lamps along the lane leading to the potteries.

It was yesterday developed that when the Puritan Land company disposed of the property there was a clause that provided for a roadway through that section, but W. E. Wells, of the Laughlin pottery, informed the parties yesterday that the road could be closed at any time. The several pottery firms are disposed to do so. Therefore no lights will be placed on that thoroughfare, as the intention was to provide lights on streets under the control of the city, and according to the argument of Mr. Wells this lane is private property.

It has been suggested that some steps be taken to insure the safety of the lamps, since the city will be compelled to pay for all globes broken and should the small boys be seized with a desire to break a few it will be a rather expensive matter to keep the lights in repair. It is thought if, upon the first offense of this kind, Mayor Davidson make an example of the offender by fining him heavily very little trouble will be had.

Trainmaster Was Afraid to Leave a
Pair of Skids at East End
Station.

One day this week the conductor of the local freight made application to the trainmaster for a skid to enable his crew to unload heavy freight with a trifle more convenience. He was somewhat surprised when the request was refused on the ground that the official feared it would be stolen. This sounds a little strange in view of the fact that the platform is sometimes filled with hundreds of dollars worth of freight, which is permitted to remain outside the whole night through, and the first instance of a theft has yet to be reported.

Services at Second U. P. Church.

Rev. J. R. Greene has concluded to remain in Harrisville over Sunday. The reverend gentleman has been at that place all week assisting Rev. C. S. Manor with preparatory services. Rev. Gibson, a theological student of the Allegheny seminary, will occupy the pulpit at the Second United Presbyterian church.

Went to Beaver Falls.

Thomas White left this morning for his home in Beaver Falls, where he will visit his family over Sunday.

Mrs. Fisher is Better.

Mrs. Fisher, of Ohio avenue, who has been ill for several days with lung trouble, is somewhat improved today.

Services as Usual.

The pastor announces that all the Sunday services will be held at the Second Methodist Episcopal church as usual tomorrow.

Rev. Orcutt has so far recovered from his recent illness as to be able to conduct services tomorrow.

The new addition to the Laughlin No. 2 plant is nearing completion, the wall being finished to the second story. Plans are now being arranged for the new china works to be built by this firm in the spring.

Repairs Completed.

Repairs have been made at the National pottery, where a pump was broken in the slip house yesterday, and the force have returned to work.

THE EVENING NEWS REVIEW.

16TH YEAR. NO. 160.

EAST LIVERPOOL, O., SATURDAY, DECEMBER 15, 1900.

TWO CENTS

PENNSYLVANIA AVENUE AGAIN

Council Held a Special Session Yesterday Afternoon and Decided to Pave It.

M'LAUGHLIN GETS CONTRACT

McLane and Heddleston Left and a Special Session Will Now Be Held

TO TRANSACT OTHER BUSINESS

Council held a special meeting yesterday afternoon with all members but Smith and Arnold present.

Two new East End plats were presented and after a short discussion were accepted.

Then came the question of whether or not to pave Pennsylvania avenue. The former bid of Thomas McLaughlin was opened. He had bid \$1.25 per yard for brick paving and 85 cents per yard for macadamized road. For the 15 inches of broken stone to be put on the road he bid 65 cents.

The engineer stated that the contractor had one layer of stone on in some places and in other places he had it all on. He estimated that there was about 39 cents per yard due the contractor now.

Contractor McLaughlin stated that he was willing to go ahead with the brick work at his bid if council desired to pave the road instead of macadamizing it.

Then a long discussion was had as to whether council could make a change in their plans at this late date. Finally, in the absence of Solicitor Gaston a telephone message was sent to Attorney A. H. Clark and he stated, after the matter had been explained to him, that a new resolution had better be passed.

Council passed the resolution by a unanimous vote and Pennsylvania avenue will be paved from lot 1589 to the East End school house.

The Calcutta road matter was then taken up and Attorney Clark stated that if council purposed to grade out the west 12 feet of the road between Wall street and North street a resolution had better be passed.

Before this could be done McLane and Heddleston departed without asking President Marshall to excuse them.

As seven members were needed to pass the resolution, nothing could be done without them. An effort was made to locate them, but without avail and as a result a special meeting has been called for Monday evening at 8 o'clock.

JOHN BEABOUT.

A few minutes after 10 o'clock last night an alarm called the fire department to the old Davidson opera house on Second street to extinguish a small fire in the basement of the building.

The room in which the blaze started is occupied by Bud Brookes as a hot tamale shop and was caused by a can of gasoline exploding.

The damage will not exceed \$20.

SOPHOMORES WON THIS TIME

The Freshman Class Went Down to a Crushing Defeat Yesterday Afternoon.

THE SCORE WAS 28 TO 0

Sophomores Played All Around Them and They Had No Chance to Score.

SOME GOOD PLAYS WERE MADE

The members of the freshmen class of the high school are now "sorry that they spoke," as the sophomores yesterday demonstrated to them that "he who laughs last, laughs best."

The first time the two foot ball elevens came together, neither side was able to score. The next game the freshmen won by a score of 5 to 0, and it is needless to say there was joy in the camp of the freshmen.

That joy has now turned to sorrow and the sophomores are now tell-

ing "what we did to them yesterday."

The game took place yesterday afternoon at Rock Springs, but owing to the cold weather the attendance was not large.

The sophomores just literally walked all over the freshmen and won by a score of 28 to 0. The freshmen never had a chance to score, although they worked hard.

The feature of the game was the playing of Bennett at tackle for the freshmen, while Cripps distinguished himself by making several long runs and three of the touchdowns.

The deciding game of the series will probably not be played until next year, unless the weather moderates considerably.

THREE ARRESTS.

A Number of Unfortunates Who Were Taken to City Jail Yesterday.

Ed O'Brien, giving his home as Allegheny, was arrested yesterday by Officer Morris. O'Brien was under the influence of liquor. He was given a hearing this afternoon.

Frank Doyle, of Chester, filled up on booze Thursday, and in his rambles went into the Leader store. He was ordered out, but refused to go. Officer Morris was called and he was

taken to city hall and locked up. He was given a hearing this afternoon.

F. Johnson, who gives his home as Salineville, was under the influence of liquor yesterday and was arrested by Officer Dawson and taken to city hall. The mayor will give him 30 minutes to leave the city, as he is a frequent visitor at the jail.

SUED THE OFFICERS.

MUSICIANS OF EIGHTH REGIMENT WANT PAY.

They Have Sued for Money Which They Claim the Officers Agreed to Pay Them.

A long delayed law suit was instituted today against the officers of the old Eighth regiment, which took part in the Cuban campaign during the Spanish-American war.

The plaintiffs are Walter Harris and 18 other members of the regimental band, and the defendants are Colonel Curtis V. Hard, of Wooster; Lieutenant (now general) Charles Dick; Major Fred Bryan, Major C. C. Weybrecht, Major Edward Vollrath, Adjutant Alex W. Maynes and the captains of nine companies in the regiment. With the defendants are also named five members of the band, including the leader, William R. Palmer, all of whom refused to become parties to the suit.

The suit is the outgrowth of a disagreement between the musicians and the officers of the regiment relative to the extra pay the band was to receive for accompanying the regiment into active service. When the regiment was mustered in at Camp Bushnell the bandmen were forced to enlist as privates. The musicians refused to go with only privates' pay and extra pay. The officers, it is alleged, agreed to make up \$325 a month to be divided among the members of the band. It is claimed this amount was paid but one month, and for the balance, which they claim amounts to \$1,560, this suit is brought.

FIXED THE LOSS.

The Appraisers Have Adjusted the Loss at the Bagley Company Fire.

W. A. Weaver and W. G. Stewart, the adjustors who were appointed to fix the amount of loss to the stock of cigars in the recent fire at the Bagley company's store, have finished their work, and the amount allowed was 62½ per cent of the original value, amounting to \$1,097 61.

Closing the Year's Business.

Crockery Journal.

The potteries are occupied chiefly
now with matters pertaining to the
close of the year's business. The holi-
day vacation will commence at the
close of next week—the shutdown to
be made Saturday evening, Decem-
ber 22. Orders will be pretty well
cleaned up by that time.

Preparations for the new year are
well advanced in all the potteries,
and the necessary repairs will be
completed during the vacation.

This is expected at the majority of
the plants to occupy the two weeks
embracing Christmas and New Year's.

Young Women

The entry into womanhood is a critical time
for a girl. With her whole being undergoing a
change, the seeds of female troubles are sown.
Little menstrual disorders, if neglected at the
time, will follow the woman all her life and
grow into fatal complications. That female
troubles are robbing homes and filling grave-
yards, proves this. Yet, irregular and painful
menstruation are often permitted to go on, sap-
ping the life and energy, while Wine of Cardui,
the positive relief for these ills, is on the shelf
of every drug store. Wine of Cardui helps the
maiden sustain the shock of puberty by induc-
ing a painless and natural menstrual flow.
When once this important function is started
right, a healthy life will usually follow. Wine
of Cardui is an emmenagogue of great power,
and works wonders in strengthening the deli-
cate and sensitive female organs. Many young
women owe their lives to Wine of Cardui. No
woman should give up hope until she has given
Wine of Cardui a trial. If thousands have
secured relief through it, why not you?

WINE OF CARDUI

Tully, Kas., Feb. 24, 1899.
I have suffered untold pain at menstrual
periods for a long time; was nervous, had no
appetite, and lost interest in everything; in
fact was miserable. I have taken four bottles
of Wine of Cardui with Black-Draught when
needed and to-day I am entirely cured. I can-
not express the thanks I feel for what you
have done for me.

ECONOMY

In Manufacture And Selling Now Relied Upon for the Successful Manufacture of Pottery.

Crockery Journal.

The price of pottery has ruled low during the whole year and there seems little inclination on the part of the majority of potters to attempt any regular advance. The action taken at the United States potters' annual meeting the past week gave no indication of any material change beyond an effort to establish uniformity in sizes of staples, and a restoration to original conditions and prices which had practically been cut by increasing sizes in some lines.

Economy in manufacturing and selling, coupled with the highest grade of production, are chiefly relied upon now for successful pottery manufacture.

Mr. W. P. Cochran, of Mulberry street, East End, says: "At intervals for thirty years I had serious kidney and bladder trouble. The agony I went through can hardly be described. Many nights I rolled from one side to the other trying to find an easy position for my back. I could not move without having sharp twinges of pain, and I was also troubled with urinary difficulty, the secretions being very irregular and at times very distressing. I ran down so that I could hardly help myself; doctors treated me. I took a power of stuff and I had given up all hope of being cured when I saw Doan's Kidney Pills advertised as a never-failing remedy. I got a box at the W. & W. pharmacy, and after taking half of it I could see some improvement. I continued and the treatment did me more good than anything I ever used."

DRUNKS.

They were strongly in evidence last night on our thoroughfares. Two inebriates braced one another at the corner of Washington and Broadway about 10 p. m., and held control of the sidewalk, much to the annoyance of decent and sober citizens.

BEER.

Will some of our local experts in beer drinking kindly tell us the ingredients made use of in the manufacture of beer in the breweries of East Liverpool? This is a pertinent question, and may be a matter of vital interest to more than one beer guzzler in this city.

BISHOP IRELAND.

The bishop would be better engaged, by far, in organizing "Father Matthew" total abstinence societies, than, if he be correctly quoted, in lauding and upholding the army canteen, a saloon in its infancy and an open door to hades. We sincerely hope that Bishop Ireland may repudiate the statement that he favors the accursed army canteen.

PENNSYLVANIA AVENUE.

Council deserves commendation for deciding to pave Pennsylvania avenue with brick. It is an absolute necessity that we shall have a first-class thoroughfare connecting our hustling, progressive suburb with the main city; and this roadway should be a first-class one in every particular, and should be carefully attended to in the future, and kept in first-class order, as the avenue will become a favorite drive and much in demand.

DEAD BEATS.

The organization of a society or club among business men, for the purpose of circumventing and defeating the rascally class known as dead beats, is being agitated in our city. The measure can be made a success, if worked in a practical manner. Almost every business man, in East Liverpool has been imposed upon by these cheats and swindlers, and they should be brought up with a round turn and compelled to earn their living, and not subsist upon their stealings, as they are thieves, in the very meanest sense of the term.

Frank T. Searight is Not Favorably Impressed With the Efforts Made to Capture Kuhns.

Auburn Courier.

Frank T. Searight, a reporter for the Cleveland Press, was a caller this forenoon. He has been down at Logansport, Peru and Churubusco, working up the Kuhns episodes for his paper.

He is not favorably impressed with the efforts being made to capture the desperado. He talked with Officer Dean at Logansport and saw the two bullet holes the man supposed to be Kuhns had made.

Valorous Brown saw Kuhns at Busso and knows him well. About the right time after the shooting at Logansport Kuhns stepped off an east bound Wabash train at Churubusco, and left a package at a saloon before starting off into the country. The package was found to contain two revolvers.

Mr. Searight will remain in this part of the county a day or two, and then if nothing definite transpires will return to Cleveland.

MARKS ON AMERICAN POTTERY AND PORCELAIN.

The Messrs. Rouse and Turner took the Jersey City pottery soon after 1850. They made white ware, on which they placed the English mark, the lion and unicorn, with the initials of the firm, R. & T., beneath. This was probably the first American pottery to stamp its wares with a foreign mark. It was the beginning of a practice which afterwards became common among American manufacturers and has survived until the present time, for, until a few years ago, foreign wares were preferred to the domestic.

About 1880 the firm began to use a mark on their ivory white ware for decorators. This mark consisted of the letters I. V. W. It was evidently prepared hurriedly, as the middle letter should have been a W, but, since the error had appeared on the ware, it was never corrected.

James Bennett erected a pottery for the manufacture of yellow and Rockingham ware in East Liverpool, Ohio, in 1839. This was the pioneer pottery of what is now the greatest pottery producing section in the United States. In 1844, Mr. Bennett, with his three brothers, moved the plant to Birmingham, Pittsburg, Pa. The mark used at this time was the name of the firm, "Bennett Bros."

In 1846 Edwin Bennett withdrew from the firm and went to Baltimore, where he erected a small pottery. Two years later he was joined by his brother William. The mark used at this period consisted of the firm name and address. The wares produced were stoneware of various colors, Egyptian black ware and a variety of majolica that was introduced about 1850. This mark was discontinued about 1856, when William Bennett withdrew.

During the following 20 years no other marks appear to have been employed. In 1875 the Phoenix mark was used on white granite ware.

In 1880 a seven-pointed star, enclosing the initials of the manufacturer, was adopted for stone china.

In 1884 the mark for cream colored ware was a globe in a circle, surrounded by the word warranted.

In 1884 and 1885, copyright and patent marks were used on parian plaques, with relief designs of heads of cattle and other specialties, modeled by James Priestman. These were among the best things of the kind that had been produced at that time, and were modeled from life.

In 1886 the owl mark was used on "Ivory" chamber sets and jugs. In the same year the mark for stone china consisted of a design of two deers supporting a shield. Mr. Bennett had been importuned by the trade to adopt the English mark, which he refused to do, but compromised by using this device, which is, in reality, though perhaps not intended to be, a modification of the arms of the state of Michigan. An additional mark for stone china or white granite ware was used to some extent in 1886. This was a square enclosing a circle inscribed "Warranted Stone China."

In 1890, when the Edwin Bennett Pottery Co. was organized, the mark adopted was a globe, pierced through the United States by a sword, on the guard of which the initials of the company appear. The motto which forms a part of the mark is "Bona Fames Melior Zona Aurea." This continues to be used on all semi-porcelain wares. Several variations appear on special wares.

In 1892 the Semi-Granite stamp was placed on cream colored ware.

In 1896 the Coronet stamp was employed as a mark on an English printed body.

In 1894 the company began the manufacture of their "Brubensul" ware, a highly glazed variety of majolica. The name was formed by the combination of the first syllables of the names of the firm—Brunt, Bennett and Sullivan. The mark appears as a large paper label attached to the bottoms of jardinières and other pieces.

In 1895 the production of slip-painted ware was commenced, which was called "Albion" ware, because slip decorating had been done in England at an early period. This was decorated beneath the glaze and possessed a distinct art value and elements of originality. The mark consisted of the name of the company and of the ware and the date of production.

The foremost decorator of the Albion ware was Miss Kate De Witt Berg, a former pupil of the Pennsylvania Museum and School of Industrial Art, Philadelphia. Her monogram appears on pieces painted by her, either in printing or writing letters.

Miss Annie Halsam Brinton, also of Philadelphia, was another decorator of Albion ware. Her mark was a monogram of her initials.

In 1896 the diamond mark was placed on a hard grade of china, which was only produced for a short while.

From 1897 to the present time (1900) a modification of the earlier coronet stamp has been used for cream-colored ware.

The American Porcelain Manufacturing Co., of Gloucester, N. J., produced soft porcelain from 1854 to 1857. Their mark consisted of the initials of the company impressed in the paste. Marked pieces that are known are embellished with raised floral designs in white.

The Southern Porcelain Co., of Kailin, S. C., manufactured parian ware and fine white ware to a limited extent between 1856 and 1862. They also made brown stoneware telegraph insulators. The mark used on the latter and probably on some of the finer wares was an impressed shield bearing the initials of the company.

Messrs. Millington, Astbury & Poulson, of Trenton, N. J., were making white ware goods in 1861. A large pitcher, with relief designs, illustrating the shooting of Colonel E. E. Ellsworth at Alexandria, Va., at the breaking out of the civil war, bears their impressed mark, an ellipse with the initials of the firm.

Messrs. Stephens, Tams & Co. established a pottery in Trenton in 1861. In 1868 they organized the Greenwood Pottery Co. From that date until 1875 the arms of the state of New Jersey were used as a mark for ironstone china. In the latter year they added the legends which appears on the subjoined mark. The

patent was on a scalloped dish which was produced in that year.

The initials of the company were stamped in the body of the first table porcelain made at this factory about the same period.

In 1886 the name "Greenwood China" was impressed in the body of table and toilet wares.

From 1883 to 1886 the mark used on art wares was suggested by the Royal Worcester mark. The figures in the center (61) have reference to the date of the establishment of the factory. This mark was printed in purple on the ware, which had an ivory finish and raised gold decorations.

In 1886 the mark used on hard porcelain art ware was a modification of the above. It was printed in purple beneath the glaze.

This same mark was also used on special orders of art wares for Messrs. Ovington Bros., of Brooklyn, with the addition of their firm name.

The upper portion of this mark was also used alone, to some extent, on similar wares of the Royal Worcester style.

ONE KILLED, SEVEN INJURED

Forgetfulness of an Operator on the Fort Wayne Road, Near Pittsburg, Caused a Fatal Wreck.

Pittsburg, Dec. 15.—Forgetfulness on the part of the telegraph operator in the signal tower at Leedsdale caused a serious wreck, the death of one the serious injury of nine others and much damage to rolling stock on the Pittsburg, Ft. Wayne and Chicago railroad.

The Leedsdale accommodation pulled out and the operator by mistake set a white block instead of red block for No. 8, a fast train. The fast train crashed into the accommodation. The operator sent a message to Edgewood, asking the operator there to flag No. 8 and got an "OK" answer, but the wreck occurred. The operator continued at his work until it was over and he was relieved. After reporting to the chief and taking the blame himself, he later went to Allegheny City and reported in person. One man was killed, as follows:

Oscar White, fireman on express train, cut about the head and body. Died at Mercy hospital; never recovered consciousness.

The injured were:

R. L. Stevens, passenger on No. 8 residence New York city; internally injured; condition serious. Sent home.

D. J. White, baggage-master on accommodation, arms and body crushed. Condition serious.

Fred Schuch, brakeman on accommodation, aged 24, and single; suffered severe body bruise. Seriously hurt, but will recover.

James Johnston, of Leedsdale, conductor on the accommodation, cut about face and body. Condition not serious.

J. E. Hanson, of Chicago, passenger on express, scalp bruised, but not seriously hurt.

Mrs. Hanson, wife of J. E. Hanson, stunned by fall from berth and thought to have been hurt internally.

William Fischer, of Dover, Del. head cut by being thrown against seat.

Ada Fischer, 14 years old, daughter of William Fischer, slightly cut about the face.

George Fleming, porter in private car of General Superintendent Charles Watts, had right side badly bruised.

Many of the above properties can be bought on easy terms. In no case more than one-third cash is required. To specify in each case the terms would require too much space. Inquire of us for full particulars. Like all dealers, we are anxious to display "our goods," and hence be perfectly free to ask us anything you wish to know.

WESTERN POTTERIES.

CUT QUITE A FIGURE IN THE IMPROVEMENTS MADE THIS YEAR.

Over Sixty New Kilns Have Been Built And Over 50 of Them Are in the West.

In speaking of the statistician's report at the meeting of the Manufacturing Pottery at Pittsburgh, Crockery and Glass Journal says:

There must be an error in that part of the report of the statistics committee where it states that only 39 new kilns have been added this year. Our list of new kilns this year shows over 60, more than 50 of which are in the west, as follows:

Knowles, Taylor & Knowles Co., 1; Burford Bros., 1; East End, 1; Globe, 2; Harker pottery, 1; Wallace & Chetwynd, 2; C. C. Thompson, 1; National China, 1; Laughlin, 6; Taylor, Lee & Smith, 9; Edwin Knowles China, 5; East Palestine, 1; Salem China, 1; Sebring Pottery, 6; Smith & McNicol, 1; United States pottery, 2; Wellsville China, 2; Warwick China, 2; Canonsburg China, 6; total, 51. A stone ware plant at Akron has been changed into a white ware plant, the Summit China Co.—with three practically new kilns—making 54 in the west.

We are credibly informed that eight new kilns have been added in the east—Maddocks four, and Onondaga four—and there may be more. These would make 62 new kilns this year, saying nothing about changes from rock and yellow and sanitary to white ware at Rogers and Tiffin. The latter would, however, only be new in the white ware line.

There are also projects that seem probable of consummation the first half of 1901 that will add anywhere from 25 to 40 more new kilns in the west.

EXPENSIVE.

The Taxpayers of Stark County Are Finding That it Costs Money to Run a Workhouse.

Salem News.

Stark county is having a rather costly experience in the workhouse. The total cost of maintenance of the institution over and above receipts during the month of November was \$878 55, or at the rate of more than \$10,000 a year.

Still the taxpayers of Stark county cannot expect to learn how to run a workhouse without paying for the information.

TAKING DEPOSITIONS.

Attorney Ramsey, of Tennessee, is
Here Today Getting Evidence in
a \$5,000 Damage Suit.

Attorney Ramsey, of Tennessee, ar-
rived in the city yesterday and is
taking depositions in a \$5,000 damage
suit, brought by a Manchester (Tenn.)
pottery firm against a railroad corpo-
ration.

Some months a consignment of sag-
gers were shipped by the Potters Sup-
ply company to the firm and when
they arrived at their destination the
pottery people were presented with a
bill of \$50 for freight. They refused
to pay the sum, claiming it was ex-
orbitant, and were compelled to close
down their plant in consequence of a
shortage of saggars.

They ask the \$5,000 to cover the
damage caused by the shutdown.
Ramsey is for the railroad company.

OAKWOOD POTTERY.

East Liverpool Has Just Cause for
Pride in the Beautiful Ware
Turned Out.

Readers of the News Review, have
you paid a visit to the furniture es-
tablishment of the S. G. Hard Co.,
Fifth street, and noted the exquisite
art pottery now being displayed there?
If you have not, then you have missed
a genuine treat. The shapes are su-
perb, the coloring rich and beautiful,
the decorations all that can be desired.
Delighted purchasers are loud in their
praise of Oakwood Art Pottery. All
the work on these elegant designs is
done by hand, under the skillful ma-
nipulation of born artists. The prod-
uct now on exhibition comes from
the first kiln burned at No. 106 Huston
street, East Liverpool, near new pump
house, and our citizens have a right
to be proud of the beauties turned
out. The proprietors are our towns-
men, Messrs. Henry Schmidt, Harry
Benty and Louis Benty. We predict
for them and their establishment last-
ing success. And don't you fail to
visit the S. G. Hard Company and se-
cure some of these beautiful art
goods as presents for your dear ones
for Christmas. Patronize your home
establishments. Encourage home in-
dustry.

Sweet butter can't be made in a sour
churn. The stomach is a churn. A foul
stomach fouls the food put into it. When
the food is fouled the blood made from
it is fouled also. Foul blood means dis-
ease. Cleanse the churn and you have
sweet butter. Cleanse the stomach and
you have pure blood. The far reaching
action of Dr. Pierce's Golden Medical
Discovery is due to its effect on the
stomach and organs of digestion and
nutrition. Diseases that begin in the
stomach are cured through the stomach.

"Dr. Pierce's Golden Medical Discovery has
proved a great blessing to me," writes Mrs.
Ellen E. Bacon, of Shutesbury, Franklin Co.,
Mass. "Prior to September, 1897, I had doctored
for my stomach trouble for several years, going
through a course of treatment without any real
benefit. In September, 1896, I had very sick
spells and grew worse; could eat but little. I
commenced to take Dr. Pierce's medicine and
in a short time I could eat and work. I have
gained twenty pounds in two months."

EAST END.

NO LIGHTS.

COUNCIL WILL NOT PUT THEM
ON A PRIVATE STREET.

Some Change Made in Regard to the
Location of the New Lights
in East End.

Those having in charge the selection of the locations for the new street lamps in East End have changed their mind in regard to the placing of lamps along the lane leading to the potteries.

It was yesterday developed that when the Puritan Land company disposed of the property there was a clause that provided for a roadway through that section, but W. E. Wells, of the Laughlin pottery, informed the parties yesterday that the road could be closed at any time. The several pottery firms are disposed to do so. Therefore no lights will be placed on that thoroughfare, as the intention was to provide lights on streets under the control of the city, and according to the argument of Mr. Wells this lane is private property.

It has been suggested that some steps be taken to insure the safety of the lamps, since the city will be compelled to pay for all globes broken and should the small boys be seized with a desire to break a few it will be a rather expensive matter to keep the lights in repair. It is thought if, upon the first offense of this kind, Mayor Davidson make an example of the offender by fining him heavily very little trouble will be had.

REFUSED

Trainmaster Was Afraid to Leave a
Pair of Skids at East End
Station.

One day this week the conductor of the local freight made application to the trainmaster for a skid to enable his crew to unload heavy freight with a trifle more convenience. He was somewhat surprised when the request was refused on the ground that the official feared it would be stolen. This sounds a little strange in view of the fact that the platform is sometimes filled with hundreds of dollars worth of freight, which is permitted to remain outside the whole night through, and the first instance of a theft has yet to be reported.
